Mission
Improved Quality Life
Vision
Albay as the most progressive, disaster resilient and globally competitive province wherein inclusive growth in agriculture and tourism sectors is achieved through a dynamic and participatory leadership and governance.

Provincial Goals
In order for the Provincial Government of Albay to achieve progress and become a globally competitive province, it must strive to achieve the following:
1. Increase Agricultural Productivity;
2. Support greater forest management and conservation measures;
3. Ensure community resiliency and public safety;
4. Adopt renewable energy action plans.
5. Promote the value of continuous education and shared knowledge through research and development;
6. Expand vital infrastructure projects;
7. Improve health services and establish better and more health facilities;
8. Enable more comprehensive delivery of social services; and
9. Strengthen local governance mechanisms.
