

2018, 2019 and 2020 Program Statistics of ENRO Projects, Programs and Activities (PPAs)

Programs/Projects/Activities	2018 Actual Outputs	2019 Actual Outputs	2020 Actual Outputs
QUARRYING REGULATION PROGRAM			
1. Identify and address the negative impacts brought by the quarrying activities	Resolved 11 negative impacts	Resolved 7 negative impacts	Resolved 10 negative impacts
2. Process Quarry Permit (QP) applications	Processed 146 quarry applications	Processed 157 quarry applications	Processed 154 quarry applications
3. Process and evaluate the request of concessionaires for additional volume of quarry resources	Processed 3,021 applications for additional volume	Processed 2,662 applications for additional volume	Processed 2,013 applications for additional volume
4. Monitor volume of extraction to prevent over extraction that will bring negative impacts to the area.	Validated 951 monthly extraction reports	Validated 1,038 monthly extraction reports Processed 786 contractor's clearance	Validated 963 monthly extraction reports Processed 786 contractor's clearance
5. Monitor compliance of the approved ECC, Provincial Ordinance and on the Terms and Conditions of the Quarry Permit issued.	Conducted 146 random monitoring activities	Conducted 185 random monitoring activities	Conducted 442 random monitoring activities
6. Verify, adjudicate boundary and utilization conflicts on concession areas	Resolved 8 boundary conflicts	Resolved 5 boundary conflicts	Resolved 18 boundary conflicts

ENVIRONMENTAL ENHANCEMENT PROGRAM			
1. Conduct capability development program, training/IEC on integrated SWM technologies and updates and other environmental protection activities and initiatives.	Conduct 13 IEC and 1 training	Conducted 9 IECs	Conducted 14 IECs
2. Monitor LGUs in the implementation of SWM Plan and Programs	Monitored 43 LGUs	Conducted 28 monitoring activities covering 18 LGUs	Monitored SWM Plans of 16 LGUs
3. Provide technical assistance to LGUs, NGOs and other sectors on SWM and other environmental protection activities and initiatives	43 LGUs provided with technical assistance	18 LGUs provided with technical assistance	13 LGUs provided with technical assistance
4. Participate in trainings/ workshops/ meetings and other activities to enhance knowledge on SWM and other environmental protection activities and initiatives	Participated 4 MMTs	Participated in GAD training	Participated 5 webinars
5. Coordinate with LGUs, NGAs, NGOs and other sectors on SWM matters and other environmental issues/concerns	Conducted 43 coordination with various entities	Conducted 28 coordination activities with various entities	Conducted 33 coordination activities with various entities
6. Evaluate LGUs' requests for logistical/ operational supports based on their SWM Plan	No request from LGU re SWM logistical support filed in the office	No request from LGU re SWM logistical support filed in the office	No request from LGU re SWM logistical support filed in the office

MANGROVE MANAGEMENT PROGRAM			
1. Conduct site identification, evaluation and assessment of proposed mangrove areas	Conducted 11 sites identified, evaluated and assessed	Identified, evaluated and assessed 12 sites	Identified, evaluated and assessed 6 sites
2. Provide IEC on mangrove utilization and development	Conducted 5 IECs/Meetings	Conducted 2 IECs	Conducted 1 IEC
3. Conduct planting of adaptive mangrove propagules	5.0 has. of land planted with 50,000 pcs. Bakawan propagules	5.0 has. of land planted with 50,000 pcs. Bakawan propagules with 10,000 propagules as replacements to damaged planted propagules	0.9947 has. of land planted with 9,947 pcs. Bakawan propagules
4. Conduct project monitoring	Conducted 21 monitoring activities	Conducted 20 monitoring activities	Conducted 18 monitoring activities
MICRO-WATERSHED MANAGEMENT PROGRAM			
1. Conduct site identification, evaluation of micro-watershed areas	29 new sites identified, evaluated and assessed	26 new sites identified, evaluated and assessed	8 new sites identified, evaluated and assessed

2. Maintain and develop Plant Nursery	1 Plant Nursery maintained and 25,155 various Agro-Forest tree seedlings	1 Plant Nursery maintained and propagated 18,637 various Agro-Forest tree seedlings	1 Plant Nursery maintained and propagated 12,887 various Agro-Forest tree seedlings
3. Conduct tree planting of adaptive species	11.3328 has. of land planted with 9,037 various Agro-Forest tree seedlings	7.3777 has. of land planted with 7,833 various Agro-Forest tree seedlings	3.59 has. of land planted with 2,912 various Agro-Forest tree seedlings
4. Provide tree seedlings to LGUs, NGOs, and other sectors	7,337 provided seedlings to different sectors	Provided 7,833 seedlings to different sectors	Provided 2,812 seedlings to different sectors
5. Conduct IEC, trainings on micro-watershed, protection, conservation and development	Conducted 4 IECs/Meetings	Conducted 24 IECs	Conducted 4 IECs
6. Conduct project monitoring	Conducted 38 monitoring activities at various sites	Conducted 67 monitoring activities at various sites	Conducted 59 monitoring activities at various sites
OTHER ENVIRONMENTAL ACTIVITIES			
1. Undertake Environmental activities in observance of Environmental celebrations	Spearheaded PGA-wide Tree Growing Activity in June 2018 and PGA-wide Coastal Clean-up in Dec.2018
